

OCD RAPID STUDIO × SAFILO

Safilo AI Bulk Studio

One 3/4 shot in. Every Amazon web asset out.

Presented by Ali · Safilo

EVERY PAGE SHOWS WHAT EACH RENDER COSTS

THE FLOW

From one photo to a full asset set

01

One 3/4 shot

The only photo you supply

Free upload

02

All angles

Front, 3/4, side, back

5 credits a view

03

360° spin

10 s catalog turn, true all round

900 credits a spin

04

On model

Models wear the product

3 credits a look

05

Video

The model with product moves

15 credits a clip

Every render is priced before it runs. 1 credit = \$0.10.

STEP 1 · INPUT

One 3/4 shot is all we need

Upload one clean 3/4 photo of each frame.

No studio booking, no turntable, no reshoot.

Optional 4K Enhance sharpens the source:
stitching, hardware and logos stay crisp.

INPUT · 1 PHOTO

STEP 2 · ALL-ANGLE VIEWS

Every side, rendered true

Front

3/4 left

Side

3/4 right

Back

One 3/4 shot in. Rapid Studio renders the other sides with hinges, logos and temple tips where they belong.

3/4 CAMERA VIEW

Controlled camera heights

Same frame, same 3/4 angle.

You set the camera height for every shot, so a whole batch matches.

Eye level

Elevated

STEP 3 · OCD 360° EXACT

A spin that stays true

Built from the sides Rapid Studio just made.

The back is your back. Hinges, materials and branding sit where you put them.

Social turn · 720p · 5 s

250 credits

\$25.00

Catalog turn · 1080p · 10 s

900 credits

\$90.00

OCD 360° EXACT · CLICK TO PLAY

STEP 4 · ON MODEL

Still models wear the product

Field jacket

Plaid knit

Cream coat

Full length

The model and product move

Each still becomes a clip: five seconds or ten.

A breath, a soft drift of hair, the light moving across the lens. No camera swoops.

720p · 5 s

15 credits

\$1.50

1080p · 10 s

55 credits

\$5.50

Close-up

Full length

Every model, same flow

Swap the model and the styling. The product stays exact.

One approved still per look, one clip per still.

720p · 5 s

15 credits

\$1.50

1080p · 10 s

55 credits

\$5.50

Plaid knit

Cream coat

What one frame costs, end to end

Asset	What you get	Credits	Cost
Source photo	1 × 3/4 shot	0	\$0.00
All-angle views	6 views	30	\$3.00
OCD 360° EXACT spin	Catalog turn, 10 s at 1080p	900	\$90.00
On-model looks	3 looks, standard	9	\$0.90
On-model video	1 clip, 10 s at 1080p	55	\$5.50
Total per frame		994	\$99.40

Example bundle at the list price of \$0.10 a credit. A 5 s 720p social turn is 250 credits (\$25). Optional 4K Enhance is 8 credits (\$0.80) an image.

BULK

Run the whole catalog in one batch

01 · Hand over

One 3/4 shot per frame

A folder of photos goes in.

02 · Produce

Every asset, automatically

Views, spin, looks and clips. Walk away, or run it overnight.

03 · Approve

Review the batch

Revisions re-render in minutes.

100 frames

99,400 credits · \$9,940

at the example bundle of \$99.40 each

Proven: six products, 46 views, one run in the app.

Bulk automation runs in our studio for clients today. The self-serve version is in development: volume terms on request.

One studio, built around your needs
